

INTRODUCING THE THBI... LIVE STUDY CONSULTANTS

The Live Study Consultant (LSC) is similar to an academic advisor in that the LSC advises students in areas such as the services and policies of THBI and offers guidance in elective course selections for our students to meet all the requirements to graduate.

THE LSC IS DIFFERENT THAN AN ACADEMIC ADVISOR IN THAT THE LSC PROVIDES SPECIAL, FOCUSED FOLLOW-UP INSTRUCTION BY REVIEWING THE COURSE EXAMS WITH THE STUDENT.

- Using each Course Exam as a further teaching tool, the Live Study Consultants are responsible to review the incorrect answers on each exam with the student in order to help the student learn not only what the correct answers are but the reasons for the correct answers in order to help the student gain a better understanding about the subjects included in the Course Exams.

The LSC services are included in the tuition and as such, the student is expected to utilize the services of his or her Live Study Consultant, in fact, a student's success often depends upon how well that student utilizes the services of his/her Study Consultant!

- **Note: A student may "opt out" of the LSC services.** To "opt out" requires the student signing a waiver of services form. Opting out of the LSC services will not suspend the LSC making certain assignments - - however the student will lose the advantages and benefits of participating in the LSC services.

Each LSC Consultant has a Bible College degree, graduating at either the Master's or Doctorate level.
